

## **GE Internship Task List**

- A. Assemble and manufacture electronic circuit
  - 1. AC/DC Power Supply
  - 2. Audio Amplifier
  - 3. Radio Receiver
  - 4. Industrial Controller
  - 5. Monitoring devices
  - 6. And other electronic products
  
- B. Service and repair of electronic consumer products.
  - 1. Audio equipments and devices
  - 2. Radio, cellular phone, and telephone
  - 3. Television
  - 4. VHS and DVD player
  - 5. Video Camera
  - 6. Musical Keyboard
  - 7. Plasma/LCD monitor
  - 8. And other electronic products
  
- C. Service and repair of industrial devices, control, and equipment
  - 1. Relay and Magnetic Contactors
  - 2. Solid State Relay and Power Semiconductor
  - 3. Input Switches and Sensors
  - 4. AC/DC Motors and other output devices
  - 5. Controller
  - 6. And other industrial electronic products
  
- D. Service and repair of computer.
  - 1. Assemble computer
  - 2. Troubleshoot and repair computer
  - 3. Replace and upgrade parts of computer.
  - 4. Install operating system and other application software.
  - 5. Setup and configure the computer
  - 6. Customize computer

### **Course Learning Outcomes:**

- A. Assemble and manufacture electronic circuit**
  
- B. Service and repair of electronic consumer products**
  
- C. Service and repair of industrial devices, control, and equipment.**
  
- D. Service and repair of computer.**
